A NEWSPAPER DEVOTED TO THE HOME CIRCLE

VOLUME I.

RICHMOND, KENTUCKY, TUESDAY, AUGUST 19, 1913.

NUMBER 33.

FORMER CHIEF PAGE OF HOUSE SAYS HE RECEIVED \$7,500 FOR SHAPING BILL.

TESTIFIES IN LOBBY INQUIRY

Chicago Congressman's Ex-Employe Swears Representative Proposed That He Go to Prison for Others-"Shark" Bill Up.

Washington, Aug. 18 .- A story of bribery, petty and large, of conferences with lobbyists and of campaign funds raised by manufacturers, involving Representative James T. McDermott of Chicago, was told by I. H. McMichael, former chief page of the house, before the house lobby investigating committee Friday.

McMichael said that Chicago members of the National Association of Manufacturers raised \$1,250 as a campaign fund for McDermott, told of numerous transactions between Martin M. Mulhall and the stockyards congressman. He swore that McDermott RECEIVES PEACE PLANS told him that he received \$7,500 for his efforts to have the loan shark bill in the District of Columbia amended so that it would not injure pawnbrokers, and told of numerous conferences between the congressman and the lobbyist.

At one of these conferences, at which he was present, McMichael said that McDermott told Mulhall he would need \$6,000 for his campaign expenses, and that Mulhall said he later gave Mulhall \$75 to go to Chicago at the request of McDermott, who said he "was broke."

This was during the 1912 campaign. After he had been elected McDermott told McMichael that Mulhall had not raised a cent for him and had left him a \$300 hotel bill to pay.

Subsequently, however, Mulhall showed McMichael a list of Chicago manufacturers and the amount they had contributed to McDermott's campaign fund, aggregating \$750. The only name on this list that McMichael could remember was that of the Link Belt company. Another check given by Harold McCormick of Chicago was collected both in the original and on

McMichael then told of a grip taken by him and McDermott to New York, where they met George D. Hornung, a Washington pawnbroker, and John McDermott, a New York brewer, He said that McDermott registered in New York as "McDougal" and informed McMichael that he did not want any one to know he was there,

The four mentioned held a conference about the loan shark bill in John McDermott's office and Representative McDermott agreed with Hornung that the pawnbrokers should not be put under the same restrictions as the socalled "ten per centers," the witness said. Later McMichael learned that \$10,000 had been raised by Washington pawnbrokers to have the bill so amended and named Hornung and Heinheimer, Bernstein and Tribby as contributors to this fund.

In concluding his testimony Mc-Michael said McDermott had come to him since the publication of the Mulhall correspondence, including letters ascribed to McDermott. He said:

"I met McDermott in the hall of this office building and he said, 'My God, I'm a ruined man. What am I going to do? Do you suppose anybody will believe this old guy?"

"I said to him, 'I've worked hard for you six years, harder than I ever that the couple were to be divorced. worked for any man. I tried to elevate you and help you to a big position.'

"I told him I had done all I could

FEAR BIG RACE WAR IN OHIO

Head of Vigilance League, Opposed to Negroes, Receives Very Threatening Letter.

Akron, O., Aug. 15.-Dr. L. B. Clark, one of the leaders in the North has notified negro families to leave the section within a week, received a thereatening letter in which he was warned to cease his tactics or his home would be burned and his family attacked. The police expect to arrest the letter writer. The local officers fear a race war will result from the tense situation.

INDIANS ON THEIR WAY TO THE SHAN KIVE

Here is a band of 100 Ute Indians on their way to take part in the Shan Kive, the annual festival of the Pike's Peak region. This year the fete, which takes place the first week in September in the Garden of the Gods, will be marked by the dedication of a monument commemorating the last massacre of whites in that region.

PRESIDENT WILSON'S MESSAGE IS FINALLY DELIVERED.

Mexico's Provisional Head May Be a Candidate for the Presidency of the Republic.

Mexico City, Aug. 18.—President Wilson's message to President Huerta would try to get it for him. Shortly is now in the possession of the govafter that, he said, Mulhall brought ernment, which may be expected to reto McDermott's office a list of the ject it or to return some answer short-Chicago members of the National As- ly. Foreign Minister Gamboa in the sociation of Manufacturers and Mc- two conferences with John Lind, Presi-Dermott marked who were in his dis- dent Wilson's special representative trict. McMichael, in the capacity of in Mexico, came to the conclusion with McDermott's ocnfidential secretary, the consent of President Huerta, that then returned the list to Mulhall and the simplest way to an end was to accept the document for President Huerta and his cabinet and study it.

> It would appear now that as the message has been in the possession of the government since Thursday night, and no action concerning it has yet been announced, there is a good chance for its acceptance.

President Huerta gave Friday night what was considered to be an intimation that he would be a candidate for election to the presidency in the autumn. When asked as to his intentions, he said it was undesirable for him to make at this time a statement as to the possibility of his candidacy, but that he might announce his intention in a fortnight.

government, through conferences between John Lind, President Wilson's | tion or by physical force." personal representative, and Foreign Minister Gamboa, now knows the viewpoint of the United States and its desire for only a peaceful and friendly solution of Mexico's troubles. The formal communication will be transmitted to representatives of foreign powers here Monday.

It is expected in diplomatic circles that President Huerta will formally announce a call for an early election, even setting the date. It is regarded as possible that the constitutionalists would participate in an election conducted by a nonpartisan commission of Mexicans, a plan now under discussion here as an alternative that might

WILSON GIVES HIS IDEAS ON RURAL CREDITS.

Special Machinery of a Distinct Methed Must Be Provided to Help Farmers in Need.

Washington, Aug. 14.-The following statement was issued at the White House embodying the views of President Wilson on rural credits:

"Again and again during the discussioin of the currency bill it has been urged that special provision should be made in it for the facilitating of such credits of the farmers of the country who stand in need of agricultural credits as distinguished from ordinary commercial and industrial credits. Such proposals were not adopted because such credits could only be imperfectly provided for in such a measure. The scope and character of the bill, its immediate and chief purpose could not be made ests of the farmer require.

"Special machinery of a distinct system of banking must be provided for if rural credits are to be successfully and adequately supplied. A government commission is now in Europe studying the interesting and highly successful methods which have fortunate case from Shelby county been employed in several countries was laid before Gov. Will Organize Canning Clubs.

Canned fruit may become the typical product of the Kentucky mountains if a movement set on foot by church people and mountain evangelists and approved by the State Department of Agriculture meets with the success anticipated. Markets are not accessible for the mountain fruits, which grow in abundance and great variety. Consequently, much of it goes to waste, and in times past more of it has been converted into brandy. Next year it is proposed to make a thorough canvass of the mountain country in the interest of the girls. canning clubs. Commissioner Newman said he intends touring portions of Eastern Kentucky this fall after the State Fair, and Mrs. Helen Wolcott, who is in charge of the camping club work and has spoken at institutes in that section, probably will go along.

New Idea Comes From Vienna and Reflection Will Show It Has Much to Recommend It.

Behold black now as the fashionable color of the interior decorator. The liking for it arose in Vienna, where interior decorating is an art much thought of. There some of the new houses, or rooms which have been redecorated, show wall papers with black backgrounds, in which huge, bright flowers are printed. Carpets, too, are of black. The idea of this method of decorating is, apparently, to make the room strictly a background for the furniture and persons in it. The Hickman, Ky.-In accordance with brightly flowered paper, of couse, dethe request of several of the largest tracts from this effect, but the sort of prospective contributors to a fund, paper more often used does not have which it is proposed to raise for build- the bright flowers. It shows a black ing a levee to protect the business sec- ground, with a gray or misty white

In a room thus grounded pictures framed in black are hung. The effect is startling. The pictures stand out in cost estimate of this proposed work. reality from their somber surroundings. White enameled furniture is looked on with favor for use in black rooms. Surely such a setting would give the persons in it chance to shine forth in all the glory of color lent them by skin and eyes, hair and ago of this levee and it was shown clothes. On the other hand, wouldn't a room so furnished cast a depressing spell on the woman who found herself shut within its four walls for many hours in a day?

There is an outgrowth of this craze for black which is interesting, especially to those who live in apartments or other crowded quarters, where the kitchen as well as the other rooms of the house comes under occasional inspection of guests. This is the black enamaled jar or box for cakes, bread and grocery supplies of various sorts. it is painted brilliantly with big red roses, and makes an interesting note of color. Six boxes or jars of this sort ranged in orderly array on shelves give a distinctive note to the the most uninteresting pantry or kitchen.

MUST HAVE THE SUN'S RAYS

Golden Hair Absolutely Requires Them, if Beautiful Tint of Tresses Is to Be Retained.

Summer time is a time of trial for

the girl with golden hair. Dust and grime collect with disastrous effect during the summer months, giving a dull drab effect to locks which should have a lively luster. What can she do to bring back the gold? the blonde asks in despair. In nine cases out of ten she is tempted to turn to the peroxide bottle, but if she is a wise EIGHT MONTHS SCHOOL PERIOD. girl she knows danger lies that way. Peroxide dries the scalp dangerously, Versailles, Ky.-The outline of a makes the hair brittle and easily so that power can be furnished from the recent Democratic primary by a General Garnett advocated eight big majority.

LESSON FOR AUGUST 24.

THE BREAD OF HEAVEN.

LESSON TEXT-Ex. 16:2-15.
GOLDEN TEXT-"Jesus saith unto them, I am the bread of life."-John 6:35.

The Psalm of praise (Ex. 15) is followed by the sorrows of sin. After leaving the bitter waters of Marah (15:23-26) the Israelites encamped for a time at Elim (v. 27). They then entered the wilderness of sin (16:1). This name is certainly suggestive for it was the sin of unbelief that lay behind their murmurings.

1. Despair, vv. 2, 3. We sometimes censure the Israelites for their complaining within a month after their miraculous deliverance from the Red Sea, but if we examine ourselves closely we will not be surprised at their lack of faith nor at the Savior's delight when he discovered faith (Luke 7:9). Their song, Chapter 15, of deliverance has scarcely died on their lips when a new danger confronts them, viz., that of privation. How many today fail at just this point, and think only of the "flesh-pots." They complained more over the privations of God's service than over the slavery of Pharaoh, though as a matter of fact the man in Egypt does not have "bread to the full." John 4:13, Eccl. 1:8. Truly Moses and Aaron had a task on their hands for "the whole congregation murmured." They had to bear the brunt of it all for they were God's visible representatives (Ps. 69:9; Rom. 15:3). Human nature is ever the same. Rather to die by the hand of Pharaoh with a full stomach than to live in a freedom which was accomplished by any privatiors. The trouble was that having everything done for them they lacked that moral backbone, that fixedness of purpose, which a great principle inspires and moves men to suffer and to overcome. The life of slavery in Egypt had made the Israelites craven.

God's Answer. II. Deliverance, vv. 4-10. God answered their grumbling with a most course you think that heat from a gracious promise. He met their bitter radiator or stove or vigorous fanning cry with a bounteous provision of is enough to dry the hair. It is not. bread. That they might know it was Your hair needs sun if it is going to he who provided, God said "I will rain bread from heaven." But to guard against oriental improvidence or excess, they were directed to gather a day's portion for the day (v. 4 marg.) This provision was also to be a test to see if they would obey him, "walk in my law, or no." Some of them failed at the very first, and that which they attempted to keep over spoiled, see vv. 19, 20. To hoard is to lose, to use is to increase, Prov. 11:24, 25. To hoard wealth, whether it be temporal or spiritual, is to distrust God, and it was this very distrust which God was combating. It was a supernatural gift and was a type of Christ, John 6:31-33, 35. The manna sustained life for a day at a time; he, Christ, sustains forever, John 6:58. Notice, God did not place the manna in their mouths, each must gather, appropriate, for himself, so also must they who feed on the bread of life, Christ Jesus, and as they were to gather daily, so also must we feed anew each day on Jesus, Matt. 6:11.

Visible Proof. That the Israelites might realize fully that Moses and Aaron were not working some trick of necromancy, or taking advantage of some botanical or ornithological knowledge of the country, God revealed to all, at the break of day, his glory, v. 10; and that their descendants might see and know of God's marvelous goodness and deliverance, they were commanded to fill a vessel with manna as a visible convincing proof (v. 32). Nor did this supply fail as long as it was needful, v. 35, Phil. 4:19.

III. Delight, vv. 11-16. What emotions must have filled the hearts of the Israelites when at evening they beheld the quails and in the morning the manna. The mighty God who brought them out of Egypt has again shown his power. The manua was to teach them that "man does not live by bread alone but by every word that proceedeth out of the mouth of the Lord," Deut., 8:2, 3. Do not lose time speculating upon what the manna was like, simply read vv. 14-37 and Num. 11:7, 8. Strangely enough not all were satisfied with the bread from heaven (Num. 21:5) but they had to eat it or die. Some cried out for the food of Egypt, (Num. 11:5, 6) even as today some who profess to be Christians are not satisfied with Christ. As egainst these feelings of delight there must have been a sense of rebuke (v. 9) when God through Aaron commanded the Israelites to "come near before the Lord."

IV. The Teaching. The gift of the manna taught the Israelites that they must depend upon God. Man not only needs spiritual relationship but material sustenance for the maintenance of his life.

The words of the golden text were spoken in connection with our Lord's feeding the multitude. He is able to provide for the physical, and also to satisfy the deepest spiritual needs of

all who put their trust in him. "It is usually not so much the greatness of our trouble as the littleness of our spirits which Stakes us complain."-Jeremy Taylor.

By REV. J. H. RALSTON

TEXT—What is ran, that thou art mindful of him? and the son of man, that thou visitest him?—Psalm 8:4.

As man is seen in the mass, how insignificant he is! What is one among the four hundred million Chinese? What is one man of the billion and a half of the human race? From those standpoints man has no more significance than the insects that can hardly be seen with the naked eye. The most of

us drop out of life and not a ripple of interest is created on the surface of society. On the other hand as we look at man as he is seen in his real being, as he is represented to us in the scriptures, how great does he appear! Only a little lower than the angels, crowned with honor and glory, and given dominion over the creatures. An old poet has very well expressed our thought in this way:

"An heir of glory! frail child of dust! Helpless, immortal! insect infinite! A worm! a god! I tremble at myself. And in myself am lost."

Or, as Pascal has said: "The grandeur of littleness, the excellence of corruption, the majesty of meanness of man."

We must keep in mind that the question is. What is man that thou art mindful of him? It is God that is in mind here, his estimate of man. In the first place man is mortal, that is, he is like all beings composed of flesh, bones and blood; he is born, he lives, he dies. Now if that were all for man as an animal? If man would obey God's laws would he not be stronger, more comely in person, would he not be better housed, have more beautiful and pleasant surround-

But man is a moral being, and here we are approaching the image of God. Here we may include in the likeness of God the intellect also. As a moral being man is accountable to God. Here is also the realm of conscience, the capacity of distinguishing between right and wrong. And here we may find that the thoughtfulness of God receives emphasis. Every provision is made for man's moral perfection. If a conflict arises between the merely physical and the moral, the moral is preferred, and rightly so, because it is in this that the relationship between God and man is more clearly shown. Every man has a conscience unless indeed he may have put it to death by his own neglect or abuse of it. And God does not leave man with the capacity of distinguishing between right and wrong without a criterion of right, and we have the Bible. We have, too, the advantages that come from association with men and women of high moral character, and we have the immaculate life of Jesus Christ, which a late writer has spoken of in

a quality that lifts him still nearer to were drifting idly along in Christian God, and realize his spiritual relation- experience that you denied your Masship to God. It is helpful to many in ter. The secret of victorious life studying the constitution of man, to is to keep busy. The old saying is look on him as composed of three quite true. "The idle brain is the parts, body, soul and spirit, the latter 'Devil's workshop."

the faculty in him that is intended to EGGS FROM THE FARM OATS AND BARLEY STUBBLE respond to God, and does so respond, or is in open rebellion against him. As to the spiritual part of man, most specific provision has been made, and here is the realm of the impact of God with man in the person of Jesus Christ. God was manifest in the flesh and brought himself into the place where it became possible for him to have perfect communion with man. Here is the realm of redemption, and it is in connection with this redemption that we get the truest idea of

the natural man. There is no use denying that man thinks very highly of himself, and it is the spontaneous disposition of man. when asked as to his moral or spiritual state, to say that he is perfectly right. The redemptive work of Jesus Christ throws the searchlight on man, and he sees himself as God sees him, and gets the correct answer to the question, What is man that God should think upon him and visit him? In the first place he is not right. He is not just slightly wrong. Taking the teaching of the only book that has ever fairly depicted man, we must concede that the picture is gruesome and sad. At the very beginning of the race when man had not gotten far from the state of perfect innocence, it was said that every imagination of the thoughts of his heart was only evil continually. Job said that if he attempted to justify himself his mouth would condemn him. David said that all men are gone astray, that they had altogether become filthy, that there was not one that did good, no, not

one. Isaiah saw that all of man professed righteousness was as filthy rags, and that his iniquities like the wind had taken him away. Jesus ties." These are stained, smeared, Christ spoke of some men as a gen- muddy, or covered with filth. The Romans and Galatians is one that more rapidly and soon are stale. Eggs makes us shudder. Thus is man as God thinks on him, and there is nothing less that God could do for him but to redeem him out of his wretch- ties." The bran adheres to the edness and misery and death. Cutting Cowpeas. Cowpeas may be cut with the mower, and after getting at least a full day's sun the vines are raked up and

when they are drawn to the barn.

Land Should Be Plowed in August to Allow Sufficient Time for the Weeds to Rot.

If the oats and barley land is to be drilled to grain in the fall, it should be plowed in August to give time for the weeds to rot and the ground to settle, says a writer in the Baltimore American. If the ground is dry and so hard as to make it impossible to plow, put three horses in the sulky cultivator. A better implement is the steel cutaway disk. Set the teeth to run deep and cut the ground over. By harrowing the field lengthwise and then across most of the weeds can be turned under and the hard surface broken up, making it much easier to plow as soon as the August rains set in. The stubble and weeds should be plowed under and not burnt, as these, when rotted, add to the fertility of the soil and tend to cooked. make it capable of holding more moisture. Long stalk or strawy manure happened. Still the neighbor took should either be spread evenly over them up and said nothing, till the the field and plowed under or used as a top dressing after the grain is drilled in. If the manure is rotted and fine, spread it on top of the plowed your old hens. We are tired of eating ground and harrow it in as soon as them, and prefer a little pheasant. I spread. The quickest and most economical method is to use a spreader, as it can then be spread evenly and just the right quantity to the acre. One of the great advantages in the use of the spreader is in cutting up the lumps and strawy portions as it is being spread. Two men with a two-horse standing beside him a tired looking spreader will haul and spread more Irishman who held a heavy bundle on manure than four men will spread his shoulder. from wagon or cart. The manure should not be put out in little piles, but down on the platform?" asked the genspread direct from the wagon and harrowed into the top soil before it dries. There is then no loss of fertility.

DAMAGE BY ALFALFA WEEVIL

Larvae From Eggs Laid in Stems of Plants Work Much Injury by Feeding Upon the Buds.

Although in the middle west no alfalfa harming insect has yet caused widespread damage, Utah farmers have a serious pest to contend with known as the alfalfa weevil. It made its first appearance in 1907, coming demurely, "I've spent \$3.65 for nothing from Europe. The adult weevil is a hard shelled beetle, about 3-16 inch long, brown in color with a darker

Adult Male of the Alfalfa Weevil, Greatly Enlarged.

stripe down the back. It lives over winter in sheltered places much the same as chinch bugs and in the early spring lays its eggs in the alfalfa stems. The larvae from these eggs do the damage by feeding upon the buds for a period of about six weeks if unmolested.

Control methods recommended by the Utah station include keeping the alfalfa growing rapidly in the spring | neighborhood to come around and bite by disking or spring toothing, removing the first crop as soon as serious injury occurs, followed with thorough spring tooth and brush dragging, and rotation of alfalfa every four or five years. As with chinch bugs it is advisible to keep out of the way places clean of sheltering grass and refuse and securing the co-operation of whole communities in fighting the pest.

Horses for Deep Plowing.

ture for better crops. Heavy draft horses, says the Live Stock Journal, are the first essential for deep plowing and big loads. Deep and shallow plowing has had a long time controversy and the deep plowing has won the victory for better farming by the scientific experts at the agricultural colleges, and farmers who have good draft-horse teams plow deep, and the farmers with light scrub teams must still skim along and put up with light crops until they can get the heavy draft teams that can pull heverythink in th' 'ouse!" a big 16-inch plow down to the beam that will produce big crops.

A Stitch in Time. Don't forget to fix the fences. A trip around the pasture and field fences now and then will often save trouble, strength, and the time of having to drive the cattle back into the pasture. Animals are almost human when it comes to going where some one does not want them. Remove the dition. A fresh egg will absorb suggestion, therefore, by not allowing odors as rapidly as fresh milk. any sags in the wire or any loose or decayed posts in the line. A wellcases or fillers will taint the egg and kept fence is an indication of a good lower its quality. Eggs should not farmer.-C. P. Bull, Associate in Farm

baseball trust," said Representative "A serious matter," responded Representative Wallaby. "We shall, of

course, have to attend all the games."

Surprising.

"I have noticed one queer way in which nature works with opposites." "What's that?"

"So often the rising wind means falling weather."

LOCKING UP LONDON TOWER

Ancient Custom Still Observed in Big English Metropolis-Makeup of Procession.

Strange to say, very few people are aware of the ancient custom which is still kept up at the Tower of London, says London Tit-Bits. Just before midnight a beefeater and the chief yeoman porter secure the keys from the governor's house to "lock up." Having received the keys, they proceed to the guardroom.

"Escort for the keys," calls out the porter and a sergeant and six privates turn out.

The procession then marches off. and the sentries they pass issue the usual challenge of "Who goes there?" to which the answer is "Keys."

Arriving at the entrance of the Tower grounds, the Lions' gate, the porter locks the gates, and the party returns to the guardroom, the sentry challenging as before and receiving the same answer. However, on arrival at the guardroom again the sentry stationed there stamps his foot, at the same time giving the usual challenge. "Keys," replies the porter.

"Whose keys?" the sentry asks. "King George's keys."

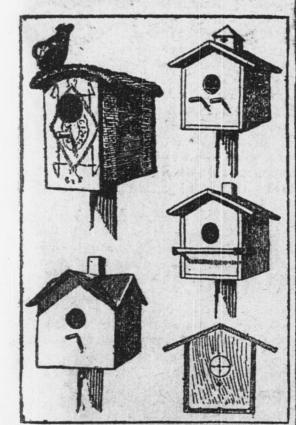

"Advance King George's keys, and all's well."

The porter then says, "God bless King George," and all present respond with "Amen." The keys are then saluted and returned to the governor's house, where they remain until the next night's ceremony.

Pretentiousness. How many weeks belong to the

Forty-six; the other six are only lent (Lent).

What is the difference between a goose and an author? A goose has many quills, but an author can make a goose of himself with one quill.

When may a man be said to as hard up as a man can be. When he cannot get credit for good intentions.

So Will the Reader. "Pop. is an abyss anything sleepy?" "Of course not, child, What put that into your head?"

"Well. it's always vawning."

der to Dispose of Goods in Short Space of Time.

The butcher, the baker, and the candlestick maker have to become expert calculators in order to dispense their goods to the waiting customers in the minimum amount of time and to be sure they do not receive the worst of it in multiplying pounds by pennies. Then, too, all sorts of perplexing lithave to be disposed of. For example, the case of the grocer who had a big packages of two pounds each. The nine pounds, respectively. There he was with his 20 pounds of sugar, his

Neat Trick of Groceryman.

scales, his scoop, and those two weights, and without loss of time he had to fill his ten two pound bags. Could you tell him how to accomplish the feat in the fewest possible number of operations?

The groceryman performed the feat as follows in ten operations, which is the shortest method possible: He placed the nine-pound weight on one side of the scales and the five-pound on the other. Then he was enabled to weigh the difference between them, four pounds in sugar, which left 16 pounds in the large bag. Then he placed the nine pounds and five pounds together on one side of the scales and the 16 pounds of sugar on the other side. Out of the bag he was then able to weigh two pounds, leaving two pounds in the four pound bag. In eight more operations he put the 16 pounds of sugar into two pound bags by using The boy or girl who puts up boxes two pounds of sugar as a two pound

PALMISTRY IN THE FAR EAST

Thumb is Called "the Great Finger" in Japan and China-Servants Use Finger Points.

The Chinese and Japanese call the thumb "the great finger," and connect it with one's ancestors. Our index finger is with them the "head or man pointing finger," and has to do with the father.

The middle or longest finger belongs sweethearts and wives (the westerns have chosen this finger, too, for the wearing of the wedding ring). The little finger concerns our descendants

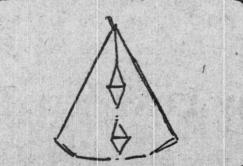

and posterity. The ball of the thumb, the celebrated "mount of Venus," according to palmists the world over, retains its qualities appertaining to sensuous, sensual, and mundane matters with the Japanese hand readers, too.

Both Japanese and Chinese servants, in signing and sealing agreements with their masters, frequently moisten their finger points with ink and press it on the paper. As a means of identity or personal sigh manual, these finger prints appear to have been long known in the east. It is, therefore, no surprise to find that Japanese palmists, in addition to examining the "lines" of the open palm, extend their inquiries to the pore patterns on the tips of the fingers and thumbs.

HINT FOR THE CAMPERS-OUT

Good Circulation of Air Is Assures in Tent by Placing Sort Stick Between Flaps.

When wishing to get up a circulation of air, try this simple plan: After closing the flaps put a stick 15 or 18 inches long horizontally, as seen in the picture, between the flaps. This

NOVEL FEAT OF GROCERYMAN CROSS MADE LIGHT

No Trouble That Is Unbearable Can Come to His Children Who Trust Him.

S THERE any such thing as unbearable trouble? Carl Hilty says there is: "One can bear all troubles but two-worry and sin." Now, it is tle problems in weighing and packing | well to realize that those two unbearable troubles are unnecessary. Neither worry nor sin has to be continued. bag containing 20 pounds of granulated | Both can be ended by the large draft sugar, which he wished to put up into on the sovereign goodness of God, which he is always ready to honor. As perplexing feature of the incident was for other troubles, no one of them is that he had only two weights, five and unbearable. We are always surprised to see how much we can bear. Most of us who seek to be wise

> would not look ahead ten years if we could. It would be impossible to bear the revelation of what will come to us in a decade. That would be putting the load of ten years on us in one day. In God's plan our experiences come to us gradually. Very few troubles come like lightning out of a clear sky: There are always clouds, and before the bolt falls there are flashes enough to prepare us somewhat for the shock. The cross is not laid upon our shoulders full weight at once. Rather, it comes down so slowly that those who must carry it can accommodate themselves to the load. God tempers the wind to the shorn lamb, so that it can stand the next wind. A shorn lamb never stays shorn. The vital forces begin at once to prepare it for the cold of the next winter. It is in part this gradualness of God's dealing with us that makes trouble bearable.

There is much help also in settling down quietly to the assurance that we are never to be broken by our troubles. There is no way of escaping them. It is not meant that we should be untroubled in this sense of the word. But it is assured that the wise hand that lets trouble come tous is also a strengthening hand that sustains us in trouble. It will bear saying over and over, that there is no promise to keep us from passing through the waters. The only promise is that they shall not overflow us. We are not told that we shall not pass through the flames, but only that they purpose for which he is meant. shall not kindle upon us. When we bearing the burden, but we shall not safety of their lives. fall under it while we count it his burden given to us.

Nothing Ever Unbearable.

There is then no unbearable trouble which cannot be avoided. There are troubles that strain us to the utmost, and that we would say beforehand could not be borne. They do not fall on us unawares, however. If we have to the mother, while the next, or not expected them, we have a right to nameless finger, is the property of realize that God knew they were coming. God is never taken unawares. If he was the only one who could foresee them, then we have especial right to expect him to brace us to bear them. We could not be ready, therefore he must help us, unready. Most of us remember in driving through the country that a hill always looks steeper from across the valley than it proves when we come to its base and Anything in Poultry Line Finds Good Supply of Decomposable begin the ascent. Most of our troubles look far more serious to us ahead then they prove to be when we come to them. Sometimes we do not come to them at all; our road turns aside before we come to the steep hill. Sometimes we come to them just as we expected, but we always take them inch by inch, and we go our way through them in a strength which

proves sufficient. As our days our strength proves. We do not have strength for a decade today, but by the end of the decade a decade's strength has been doled out to us. There is nothing to fear in the future. There is not water there deep enough to drown us, and no fire hot enough to burn us, and no burden heavy enough to crush us, because as we go into the future, Christ will be by us and bring us safely through. We could not bear the troubles, but he and we can bear them all.

"His Voice Will Be Obey." "The Lord our God will we serve, and his voice will we obey." Here was a definite decision. Our peril is dence and never gives a verdict. We do much thinking, but we never make

Now people who never decide spend their days in hoping to do so. But this kind of life becomes a vagrancy and not a noble and illumined crusade. We drift through our days, we do

a vow unto the Lord." It is good to pull our loose thinking together and to "gird up the loins of the mind." velop into road horses of a high

There are some families of trotters remarkable for their beauty of appearance and symmetry of form individuals making stylish single drivers, while many handsome carriage teams are of the standard trotting blood. Then again there are families of thoroughbreds that combine beauty with speed, and also show considerable speed at the trot.

The writer well remembers a race horse, strictly thoroughbred, who in doing his work, under the saddle would trot a mile in 3:05 and he was a good race horse at that. The late Senator Leland Stanford of California raised many great trotters (as all horsemen know) by breeding his great stallion Electioneer to mares that are practically thoroughbred. So it goes, running and trotting blood makes a trotter, and a trotter must necessarily be a good roadster even if he is never put into regular train-

We will suppose that a farmer has a pair of light harness horses that he has raised, breeding, style, conformation, education and speed are up to the standard. This pair will perform such as motor-cars, bicycles, traction | well in single and double harness, now if the breeder wants to sell from \$600 to \$800, may be a little more, could be asked and received.

The writer feels assured that the above figures are not extravagant in the least, as the demand for a high type of light harness horse is very good, but horses of this class must come up to the requirements of the trade.

WAR ON LIQUOR WORLD-WIDE

Secretary of State Bryan Tells Union League Club of Chicago of Temperance Work.

"May we not appeal to the young men of this country to abstain from the use of alcohol, that their brains may be clear and their nerves steady for the battles of peace and progress that lie before us!"

These ringing words are part of a speech delivered by Secretary of State William J. Bryan-not before a temperance audience or a young people's society, but before the Union League club of Chicago, a company of hard-headed business men.

"In most of the countries of Europe," Mr. Bryan said, "you will find that the liquor question is the moral question of paramount importance. I was in northern Ireland some two years and a half ago and met the man who recognized what is known as the 'Catch-Me-Pal' Total Abstinence society. It began with a meeting on the street between a minister and five drunken men, and one of them asked the minister to get the other four to sign the pledge. He invited them to come to his house when they were sober and to sign, and they came, and when the five had signed they went out and got five more, each man bringing back his pal, and five more signed, and then the ten went out and got ten more, and they organized this society, which, when I was there, had reached a membership of 120,000 and had changed the lives and habits of whole communities. And a Belfast lady told me a story that was the outgrowth of the work done by this society. She said that many drunkards had been reformed and that a minister, speaking to the wife of one of these reformed men, said: 'Your home life must be more pleasant now, since your husband has quit drinking,' and she said: 'Oh, yeg, yes, he is more like a friend now than a husband." (Laughter.) And such a change can be accomplished and can take place under favorable circumstances.

"France, one of the greatest wine producing countries in the world, has decided to teach in the schools the effect of alcoholism on the system. But the most startling piece of news comes from Germany. Some two years ago the emperor, speaking to the naval cadets at Vevey, dared to attack what he described as the traditional beer-drinking habits of his people. He told these young men that in any contests that might arise the country must depend upon them, and that it could not do so unless their brains were clear and their nerves steady, and then he warned them that alcohol would rob their brains of clearness and their nerves of steadiness, and in the name of the Fatherland he appealed to them to join total abstinence societies, and he held up for their own example the total abstinence societies of the British navy. And when I read this appeal of Germany's emperor to the young men of that country to be strong for war I asked myself: 'May we not appeal to the young men of this country to abstain from the use of alcohol, that their brains may be clear and their nerves steady for the battles of peace and progress that lie before us!"

MONEY SPENT FOR LIQUORS

000,000 for Beer, Wine and Whisky in One Year.

Price Honored

Hon. W. J. Price, of Danville, has been appointed as Minister to Panama. Mr. Price is well known throughout the state and especially in the Eighth District where he has been mentioned in connection with the congressional nomination. Mr. Helm is thus relieved of a most formidable opponent. Mr. James is happy because he landed his man. Mr. Price is feeling good because he got there and the District is happy because it has been honored. Everybody is glad.

MEMORIES

Another day's ended, the shadows fall fast, Silently forging a link with the past; As back thro' the years I once again see, By an old gate leaning a form dear to me.

Dim is the picture and yet, strangely bright, Ever rising before me a fair summer night; And the old homestead looming afar through the trees, While the fragrance of roses is borne on the breeze.

And yet, tonight standing how lonely I seem, 'Neath the oak's spreading branches as if in a dream; No answering voice responds to mine own, E'en the wind's low sighing dies 'way in a moan.

Then fades the picture and once more I know .Tis folly to cherish the things long ago, Each sweet reminiscence brings with it, its woe.

Lightning Strikes Power House

During the storm last Tuesday the lightning struck the chimney of the Power House of Eastern State Normal and cracked it from base to summit. The frequency of these electric storms and the damage done by same is truly remarkable as well as alarming.

British Hold Staten Island.

It was impossible to prevent their landing and they were allowed to take possession of Staten island unopposed. Men-of-war passed untouched through the Narrows, and made their way at will up the broad Hudson, unhurt by the batteries upon either shore.

General Howe remembered Dorchester and Charlestown Heights, and directed his first movement against

Washington's intrenched position on the hills of Brooklyn, where quite half the American army lay. For a little space he waited till his brother, Admiral Lord Howe, should come to act with him in negotiation and command.

Lord Howe Offers Pardon.

pardon for submission, and very honorably used a month and more of good fighting time in learning that the colonists had no desire to be pardon, ed. "No doubt we all need pardon from heaven for our manifold sins and transgressions," was Governor Trumbull's Connecticut version of the general feeling, "but the American who needs the pardon of his Britannic majesty is yet to be found."

On the 22d of August, accordingly, General Howe put twenty thousand men ashore at Gravesend Bay.

British Drive the Colonists. On the 27th, his arrangements for an overwhelming attack succeeding at every point, he drove the five thousand Americans thrown out to oppose him back into their works upon the heights, with a loss of four hundred killed and wounded and a thousand taken.

Still mindful of Bunker Hill, he would not storm the intrenchments, to Washington himself had brought reinforcements which swelled his strength upon the heights to ten thousand. He determined, instead, to draw lines of stege about them, and at his leisure take army, position, stores,

Washington Decides to Retreat. Washington, seeing at once what Howe intended, and how possible it was, decided to withdraw immediately, efore a fleet should be in the river

and his retreat cut off. It was a masterly piece of work. The British commander was as much astonished to see Brooklyn Heights empty on the morning of August 30 as he had been to see Dorchester Heights occupied that memorable morning six months before.

Washington had taken ten thousand men across that broad river, with all their stores and arms, in a single night, while a small guard kept up a sharp fire from the breastworks, and no sound of the retreat reached the dull ears of the British sentries.

Washington's Army Demoralized. But the sharp fighting and bitter defeat of the 27th had sadly, even shamefully, demoralized Washington's raw troops, and he knew he must withdraw from New York.

All through September and a part of October he held what he could of the Island, fighting for it almost mile by mile as he withdrew-now cut to the quick and aflame with almost uncontrollable anger to see what cowards ibly at the ramparts the cold night his men could be; again heartened to through the fox was up and away. see them stand and hold their ground like men, even in the open. The most that he could do was to check and thwart the powerful army pressing steadily upon his front and the free

fleet threatening his flanks. He repulsed the enemy at Harlem Heights (September 16); he kept his ground before them at White Plains, despite the loss of an outpost at Chatterton Hill (October 28), he might possibly have foiled and harassed them the winter through had not General Green suffered a garrison of three evening, King Rene's Daughter. thousand of the best-trained men in the army to be penned up and taken with a great store of artillery and small arms besides, in Fort Washington, on the island (November 16).

After such a blow there was nothing for it but to abandon the Hudson and retreat through New Jersey.

Dark Days for Patriots. His generals growing insubordinate, Washington could not even collect his divisions and unite his forces in retreat. His men deserted by the score; whole companies took their way homeward as their terms of enlistment expired with the closing of the year; barely three thousand men appreciated:

remained with him by the time h had reached Princeton.

Congress, in its fright, removed to it. Baltimore, hundreds of persons hurried to take the oath of allegiance upon Howe's offer of pardon; and the British comanders deemed the rebellion at an end.

They did not understand the man they were fighting.

When he had put the broad Dela ware between his dwindling regiments and the British at his heels, he stopped, undaunted, to collect force and give his opponents a taste of his quality. Such an exigency only stiffened his temper, and added a touch of daring to his spirit.

Lee's Fiasco and Capture. Charles Lee, his second in command, hoping to make some stroke for himself upon the Hudson, had withheld full half the army in a safe post upon the river, in direct disobedience to orders, while the British drove Washington southward through New Jerhand of the enemy, taken at an un guarded tavern where he lodged, and most of the troops he had withdrawn found their way at last to Washing-

ton beyond the Delaware. Desperate efforts at recruiting were Washington strained his authority to the utmost to keep and to congress very nobly. "A character to lose," he said, "an estate to forfeft, the inestimable blessing of liberty at stake, and a life devoted must be my excuse."

What he planned and did won him a character with his foes.

Before the year was out he had collected six thousand men, and was Lord Howe was authorized to offer ready to strike a blow at the weak, extended line-Hessian mercenaries for the most part-which Howe had al hours Thursday, and spent left to hold the Delaware.

Christmas day Washington made his advance, and ordered a crossing to be made in three divisions, the trial of Red Tom Davidson, son Sunday. under cover of the night. Only his charged with conspiring to kill own division, twenty-five hundred strong, effected the passage

cross the storm-swept river in the pitchy darkness, amidst the hazards of floating ice, but not a man or a gun march through driving snow and sleet after the landing before Trenton could be reached, the point of attack, and two men were frozen to death as they

Washington's Famous Order. General Sullivan sent word that the guns were wet: "Tell him to use the bayonet," sald Washington, "for the town must be taken."

And it was taken—in the early morning, at the point of the bayonet with a loss of but two or three men.

The surprise was complete. Colonel Rahl, the commander of the place, was mortally wounded at the first onset, and nine hundred Hessians surrendered at discretion.

When he had gotten his prisoners safe on the south side of the river Washington once more advanced to

occupy the town. Plays a Perilous Game.

It was a perilous place to be, no doubt, with the great unbridged stream behind him; but the enemy's line was everywhere broken, now that its center had been taken; had been withdrawn from the river in haste, abandoning its cannon even and its baggage at Burlington; and Wash ington calmly dared to play the game he had planned.

It was not Howe who came to mee him, but the gallant Cornwallis, no mean adversary, bringing eight thousand men. Washington let him come all the way to Delaware without himself stirring, except to put a small tributary stream between his men and the advancing columns; and the confident Englishman went to bed that night exclaiming, "At last we have run down the old fox, and we'll bag him in the morning."

The Fox Escapes. Then, while a small force kept the camp-fires burning and worked aud-

He put the whole of his force upon the road to Princeton and New Brunswick, where he knew Cornwallis' stores must be.

Strange Mule

Mr. George Burke, the Hustonville pike farmer, owns a mule which is perfectly foolish about young calves. The animal proceedsto take every calf on the farm under her protecting wing and when the old cow comes around looking around for her young, this mule proceeds to kick and raise a general disturbance. Last week Mr. Burke turned a cow and calf in an adjoining field. The first time the mule caught the calf close to the fence she reached over, caught the back of the calf in her mouth and lifted it over the fence. Ii took two or three men with pitchforks and clubs to beat the mule back so that the calf could be returned to the cow. -Danville Advocate.

Dropped Dead on Irvine Street

A colored man by the name of Geo. Huguely dropped dead Monday afternoon on Irvine street, his death being due to an over dose of bad whisky it is thought. On his person was found a pint of this beverage and several pair of dice besides \$40.00 in cash.

Latest reports from the Canal Zone announce that as the result of the prospective substitution of dredges for steam shovels in the excavation of the famous Culebra cut, the canal may be ready for shipping by next December. Even earlier than that, light draft vessels are likely to be passing through the waterway, for as the greater part of the canal prism already has been cut to its final depths, small vessels probably can navigate it safely within a few days after October 10 next, when the Gamboa dike is to be blown up, thus admitting to the Culebra level the great, store of water in Gaturi lake.

Congressman Harvey Helm, of the Eighth Ky. district, has addressed an inquiry to the Civil Service Commission demanding to know why all the Civil Service Examining Boards in the Eighth Internal Revenue district are made up of partisan Republicans. The inquiry is a pointed one and seems to be a very pertinent one. The Democratic "boys in the trenches" will await the reply with interest.—Ex.

SYNOPSIS.

Cowboys of the Flying Heart ranch are heartbroken over the loss of their much-prized phonograph by the defeat of their champion in a foot-race with the cook of the Centipecte ranch. A house party is on at the Flying Heart. J. Wallingford Speed, cheer leader at Yale, and Culver Covington, inter-collegiate champion run-ner, are expected. Helen Blake, Speed's sweetheart, becomes interested in the loss of the phonograph. f the phonograph. She suggests to Jean hapin, sister of the owner of the ranch, Chapin, sieter of the owner of the ranch, that she induce Covington, her lover, to win back the phonograph. Helen declares that if Covington won't run, Speed will. The cowboys are hilarious over the prospect. Speed and his valet, Larry Glass, grainer at Yale, arrive. Helen Blake asks Speed, who has posed to her as an athlete, to race against the Centipede man. The cowboys join in the appeal to Wally, The cowboys join in the appeal to Wally, and fearing that Helen will find him out, he consents. He insists, however, that he shall be entered as an unknown, figuring that Covington will arrive in time to take his place. Speed begins training under Glass's direction. The ladies fix up training quarters for Speed.

CHAPTER VII .- ontinued. "No, indeed," Jean corrected, "he will merely use this room to train in." "How do you train in a room?" Stover asked her.

Why, you-just train, I suppose." Miss Chapin turned to Glass. "How

does a person train in a room?" "Why, he just trains, that's all. A guy can't train without trainin' quar- he?" ters, can he?"

We thought it would make a nice gymnasium," offered Miss Blake. "Looks like business." Stover's admiration was keen. "I rode over to Gallagher's place last night and laid

"How much have you /wagered?" asked Fresno.

More'n we can afford to lose." "But you aren't going to lose," Miss Blake said, enthusiastically. "I got Gallagher to play some rec-

ords for me." "'Silas on Fifth Avenue'?"

our bets."

"Sure! And 'The Holy City,' too! Willie stayed out by the barb-wire fence; he didn't dast to go in. When I come out I found him ready to cry. That desperado has sure got the heart of a woman. I reckon he'd commit ly. murder for that phonograph—he's so full of sentiment."

Fresno spoke sympathetically. "It's a fortunate thing for you fellows that Speed came when he did. I'm anxious for him to beat this cook, and I hate to see him so careless with his training."

"Careless!" cried Helen.

What's he done?" inquired Stover. Nothing, so far. That's the trouble. He's sure he can win, but"-Fresno shook his head, doubtfully-"there's such a thing as overconfidence. No matter how good a man may be, he should take care of himself." "What's wrong with his trainin'?"

demanded Glass.

"I think he ought to have more rest. It's too noisy around the house; he can't get enough sleep."

"Nor anybody else," agreed Glass, meaningly; "there's too much singin'." "That's funny," said Stover. "Music soothes me, no matter how bad it is. Last night when we come back from the Centipede Mr. Fresno was singin' "Dearie," but I dozed right off in the middle of it. An' it's the same way with cattle. They like it. It's part

"Ain't He No Champeen?"

of a man's duty when he's night-ridin' herd to pizen the atmosphere with

"We can't afford to spoil Speed's chances," argued the young man. "There is too much at stake. Am I

was fond of his rest, and since is arrival at the Flying Heart his can do that at Yale." eeping-hours had been shortened con-

derably, so for once he agreed with the Californian. "No question about it," said he.

And I'll sleep here with him if you'll a hit. Look at this joint, for instance." but a couple of cots in the place." "But suppose Mr. Speed won't do comprehensive gesture. "It looks about the short bricklayer. "But aren't you It?" questioned Miss Blake.

"You ask him, and he won't refuse." said Jean. "We don't want to see him defeat"Of course I'll do my best, if you

think it's really important." "Thank you," said Stover gratefully, while Fresno congratulated himself upon an easy victory.

The two girls took Speed's trainer with them, and went forth in search of the young man.

"It's up to you fellows to see that he gets to bed early," said Fresno, when he and Stover were alone.

"Leave it to us. And as for gettin' up, we turn out at daylight. I don't reckon he could sleep none after that if he tried." Stover pointed to the striped elastic coils of the exerciser against the wall. "I didn't want to speak about it while they was here," said he, "but one of them young ladies lost her garters."

"That's not a pair of garters, that's a chest-weight." "Jest wait for what?"

"Chest-weight-chest-developer." "Oh!" Stover examined the device curiously. "I thought a chest-developer came in a bottle."

Fresno explained the operation of the apparatus, at which the cowman remarked, admiringly: "That young feller is all right, ain't

"Think so?"

"Sure! Don't you?"

Fresno explained his doubts by a crafty lift of his brows and a shrug. "I thought so—at first." Stover wheeled upon him abruptly.

What's wrong?" "Oh, nothing."

After a pause the foreman remarked.

vaguely: "He's the intercollegit champeen of Yale." "Oh no, hardly that, or I would

have heard of him." "Ain't he no champeen?"

"Champion of the running broad smile and the half-mile talk perhaps." "Ain't he a foot-runner?"

"Perhaps. I've never seen him run, but I have my doubts." "Good Lord!" moaned Stover, weak-

"He may be the best sprinter in the country, mind you, but I'll lay a little bet that he can't run a hundred yards without sustenance." "Without what?"

"Sustenance-something to eat." "Well, we've got plenty for him to eat," said the mystified foreman. "You don't understand. However,

time will tell." "But we ain't got no time. We've made this race 'pay or play,' a week from Saturday, and the bets are down. We was afraid the Centipede would welsh when they seen who we had, so we framed it that way. What's to be

Again Fresno displayed an artistic restraint that was admirable. "It's none of my business," said he, with a careless shrug.

"I-I guess I'll tell Willie and the boys," vouchsafed Bill apprehensively. "No! no! Don't breathe a word I've said to you. He may be a crackerjack, and I wouldn't do him an injustice for the world. All the same, I wish he hadn't broken my stop-watch."

"D' you think he broke it a-pur- Besides, we ain't got no stop-watch." 'What do you think?"

"Can't we time him with a ordinary

watch?" be exact, but-"

got one, though."

"Mind you, he may be all right," Fresno repeated, reassuringly; then hearing the object of their discussion | Speed. "Buy that watch." approaching with his trainer, the two strolled out through the bunkroom, Stover a prey to a new-born suspicion. Fresno musing to himself that diplo-

macy was not a lost art. "You're a fine friend, you are!" Speed exploded, when he and Glass were inside the gymnasium. "What corpulent gentleman rebeiled on the this beer cool." Glass shifted some made you say 'yes?'

"I had to." "Rot, Larry! You played into Fresno's hands deliberately! Now I've the morning, Speed in his silken suit, got to spend my evenings in bed while he sits in the hammock and sings 'Dearie.' " He shook his head gloomily. Who knows what may happen?"

"It will do you good to get some sleep, Wally."

"But I don't want to sleep!" cried the exasperated suitor. "I want to Now, like most fat men, Lawrence make love. Do you think I came all hausting fashion, they returned to the for the rubber." the way from New York to sleep? I ranch in time for luncheon. > "Take it from me, Bo, you've got plenty of time to win that dame. Eight hours is a workin' day anywhere." Glass chuckled. "The whole thing is He took in their surroundings with a a date with my best girl," explained as much like a gymnasium as I look going to keep it?" "I showed up all like a contortionist. Why don't you right, but she wasn't there." "That

get a Morris chair and a mandolin?" "There are two reasons," said Speed. ed," urged Helen's other suitor; at facetiously. "First, it takes an athlete end, a mandolin has proved to be many a young man's ruin." Glass examined the bow of ribbon

opon the lonesome piece of exercising apparatus. "It looks like the trainin'-stable for

the Colonial Dames. What a yelp this place would be to Covington or any other athlete." "It is not an athletic gymnasium." Speed smiled as he lighted a cigarette.

It is a romantic gymnasium. As Socrates once observed-" "Socrates! I'm hep to him," Glass interrupted, quickly. "I trained a Greek professor once and got wised

up on all that stuff. Secrates was the -the Hemlock Kid." "Exactly! As Socrates, the Hemlock Kid, deftly put it, 'in hoc signature vintage."

"I don't get you." "That is archaic Scandinavian, and, translated, means, 'Love cannot thrive

without her bower." "No answer to that telegram yet,

"Hardly time." "Better wire Covington again, hadn't

you? Mebbe he didn't get it?" "I promised Mrs. Keap that I would,

but—" Speed lost himself abruptly in speculation, for he did not know exactly how to manage this unexpected complication: Of one thing only was he certain; it would require some thought.

"Say, Wally, suppose Covington don't come?"

"Then I shall sprain my ankle," said the other. "Hello! What in the world-"

Still Bill Stover and Willie came into the room carrying an armful of lumber. Behind them followed Carara with a huge wooden tub, and Cloudy rolling a kerosene barrel."

"Where do you .want it, gents?" inquired the foreman. "Where do we want what?"

"The shower-bath." "Shower- I didn't order a shower-

"No; but we aim to make it as pleasant for you as we can."

"If there is anything I abhor, it's a shower-bath!" exclaimed the athlete. "You just got to have one. Mr. Fresno said all this gymnasium lacked

SYNOPSIS.

Cowboys of the Flying Heart ranch are heartbroken over the loss of their muchprized phonograph by the defeat of their champion in a foot-race with the cook of the Centipede ranch. A house party is on at the Flying Heart. J. Wallingford Speed, cheer leader at Yale, and Culver Covington, inter-collegiate champion runner, are expected. Helen Blake, Speed's sweetheart becomes interested in the leasure of the control of the contr ner, are expected. Helen Blake, Speed's sweetheart, becomes interested in the loss of the phonograph. She suggests to Jean Chapin, sister of the owner of the ranch, that she induce Covington, her lover, to win back the phonograph. Helen declares that if Covington won't run Speed will. The Cowboys are hilarious over the prospect. Speed and his valet. Larry Glass, trainer at Yale, arrive. Helen Blake asks Speed, who has posed to her as an athlete, to race against the Centipede man. The cowboys join in the appeal to Wally, and fearing that Helen will find him out, he consents. He insists, however, that he shall be entered as an unknown, figuring shall be entered as an unknown, figuring that Covington will arrive in time to take his place. Fresho, glee club singer from Stanford university and in love with Helen, tries to discredit. Speed with the ladies and the cowboys.

CHAPTER VIII.

the purchase of Willie's watch. This timepiece cost the trainer twenty-one dollars, and he sold it to Speed for double the amount, believing in the luck of even numbers. Nor did young Speed allow his trainer's efforts to cease here, for in every portable timeiece on the ranch he recognized a menace, and not until Lawrence had cornered the market and the whole collection was safely locked in his trunk did he breathe easily. This required two days, during which the young people at the ranch enjoyed themselves thoroughly. They were halycon days for the Yale man, for Fresno was universally agreeable, and seemed resigned to the fact that Helen should prefer his rival's company to his own.

As for Glass, he recounted tales of Mariedetta's capitulation to his employer, and wheezed merrily over the discomfiture of the Mexican girl's former admirers.

"She's a swell little dame," he confided to Speed one afternoon, as they lounged luxuriously in the shade at disputed champion of the Atlantic "Very well, put it wherever you coast, while Speed on the day previous had wrested from him the champion-

> "But Mariedetta is dark!" said the college man, as he cut the cards. "She is almost a mulatto."

> "Naw! She's no dinge. She's an Aztec, an' them Aztec's is swell people. Say, she can play a guitar like a

> barber!" "Miss Blake told me she was in love

> with Carara." Glass grunted contemptuously. "I've got it on that insurrecto four ways. Why, I'm learning to talk Spanish myself. If he gets lossy, I'll cross one over his bow." The trainer made a vicious jab at an imaginary Mexican.

> "He ain't got a good wallop in him. "I thought cowboys was tough guys," continued Glass, "but it's a mistake. That little Willie, for instance, is a lamb. He packs that Mauser for protection. He's afraid some farmer will walk up and poke his eye out with a corn-cob. One copper with a nightstick could stampede the whole outfit. But they're all right, at that." he acknowledged, magnanimously. "They're a nice bunch of fellers when you know how to take 'em."

"The flies are awful today," Speed complained. "They bite my legs." "I'll bring out a bath robe tomorrow, and we'll hide it in the bushes. I wish there was some place to keep ground that the day was too sultry, bottles to a point where the sunlight this foot-race means to the Flying did not strike them.

> "I'm getting tired of training, Larry," acknowledged the young man, cook would be beaten," said the colwith a yawn. "It takes so much time." Glass shook his head in sympathy. 'Seems like we'd ought to hear from inquired the girl. Covington," said he.

"He's on his way, no doubt. Isn't it Glass consulted his watch. "No, we

"You ain't got the right angle on the ever," said Willie that evening. "He affair," Stover explained. "Outside of fashion notes, the marriages, the die "Now, see here," objected Stover, twice to this Centipede outfit, which often have to skip the death records The may be just what he claims he is. | would be bad enough, we have drawn and the bargain advertisements.

a month's wages in advance, and we have put it up. Moreover, I have bet my watch, which was presented to me by the officials of the Santa Fe for killin' a pair of road-agents when I was depity sheriff."

Miss Blake uttered a little scream, and Speed regarded the lanky speaker with new interest.

"It's a Waltham movement, solid gold case, eighteen jewels, and engraved with my name."

"No wonder you drize it," said Wally.

"I bet my saddle," informed Carara, in his slow, soft dialect. "Stamy leather wit silver filagree. It is more dear to me than-well-I love it ver much, senor!"

"Seems like Willie has made the extreme sacrifice," Stover followed up. "While all our boys has gone the limit, Willie has topped 'em all; he's bet his gun." "Indeed! Is it a good weapon?"

"It's been good to me," said the little man, dryly. "I took it off the quiv-

ering remains of a sheriff in Dodge City, up to that time the best hip shot. in Kansas." Speed felt a cold chih steal up his spine, while Miss Blake went pale and laid a trembling hand upon his arm.

"You see it ain't intrinsic value so much as association and sentiment that leads to this interview," Stover continued. "It ain't no joke-we don't joke with the Centipede -- and we've relied on you. The Mex here would do murder for that saddle." Carara

THAW ESCAPES

The Noted Prisoner Dashes Through Wall Gate As It **Opens For Milkman**

LEAPS INTO TAXICAB

CHARGE OF CONSPIRACY BY "IN-SIDERS" MADE BY SUPERIN-TENDENT OF MATTEAWAN INSANE ASYLUM.

No Nervousness Is Shown as the he was committed on February 1, 1913. Crucial Moment Arrives.

CHRONOLOGY OF THAW CASE

June 26, 1906-Harry K. Thaw shot and killed Stanford White. January 24, 1907—Thaw's trial for life started.

February 3-Evelyn Thaw testified to relations with slain man. March 2-Insanity plea made

Thaw's defense. April 5-Lunacy Commission reported Thaw sane.

April 10-D. M. Delmas made famous "unwritten law" plea. April 13-Jury disagreed.

January 7, 1908-Second trial started. January 21-Evelyn Thaw re-

peated life's story. February 2-Thaw acquitted of murder on ground he was insane.

February 3-Committed to Mat-April 20-First habeas corpus

proceedings started. May 25-Held insane.

October 13-Again adjudged insane and remanded to Matteawan. October 21-Adjudged bankrupt. July 14, 1909—Third insanity hearing started.

August 13-Thaw held insane. December 21-Supreme Court denied plea for release.

April 30, 1910-Thaw said he did not want to leave asylum, fearing he will commit another murder. December 27, 1911-Evelyn Nes-

bit Thaw started divorce action. June 18, 1912-William White, brother of slain man, favored liberation at fourth insanity hearing. July 31-Thaw remanded to Matteawan.

December 31-Dr. John R. Russell reports he was offered \$25,000 to release Thaw.

February 27, 1913-Thaw testified that Russell demanded money. February 28-Russell resigns. March 2-Fifth writ of habeas corpus granted Thaw in fight for

freedom. March 7--- Thaw withdraws petiion for writ of habeas corpus. March 16-Granted right to con-

sult attorney by Supreme Court. May 7—Denies parentage of child cared for by Evelyn Nesbit Thaw. July 27--Sued by former counsel. August 17-Makes escape from

Matteawan.

Western Newspaper Union News Service. New York .- Harry Kendall Thaw, from the Matteawan State Hospital for the Criminal Insane. old English spelling of the name. Within an hour after his dash for liberty he had crossed the line diand that Thaw's freedom is assured unless he is held for insanity in another state and committed to some asylum there.

Thaw's escape was one of the most dramatic affairs of the kind ever recorded. After darting past a gateman, who was admitting a milkman to the Matteawan asylum grounds, he leaped the wall. This was headed for the Connecticut state line, and the moment that Thaw entered the chauffeur put on full speed and dashed away.

Before a half mile had been covered by the taxicab it overtook a sixcylinder touring car that had been moving slowly, also toward the Connecticut line. The taxicab slackened speed, and Thaw leaped out as the smaller machine drew alongside the

The door of the latter was open and Thaw leaped aboard. As the door Thaw, roaming at large, the beautiful slammed the auto speeded away at a rate of at least 80 miles an hour. The machine dashed through Stormville, N. Y., 14 miles from the asylum, without any diminution of speed, and according to late reports received by the asylum authorities, crossed the Con- told of the last words between herself necticut ine in the vicinity of New and her husband. John N. Anhut, a young lawyer, is now serving a prison sentence for his participation in the bribery conspir-

Because of the conditions under which he took office Dr. Kieb had taken extra precaution to prevent just what happened. He has ordered a rigid investigation to determine just what attendants, if any, were involved in the successful plot to free Thaw.

Since Thaw was sent to Matteawan, more than five years ago, his mother, Mrs. Mary Copley Thaw, of Pittsburg, has spent hundreds of thousands of dollars in attempts to have him freed legally from restraint. The aged mother arrived in New York unexpectedly from her summer home at Cresson, Penn., and joined her daughter, Mrs. George Carnegie, who is stopping at the Gotham Hotel.

Mrs. Thaw refused to say anything was apparently greatly surprised.

ing to the hospital to-morrow to see or indirectly." That this affidavit "was nounced that the bills had been killed. Harry," she said. "We knew nothing of his intentions, or have we any idea where he is or what he intends to do. It is a great surprise to us all."

As soon as Evelyn Nesbit Thaw heard of her husband's escape she asked for protection. She declared she believed her life in danger, and accordingly she was given police protection. She is also being guarded by a private detective hired by Arthur Hammerstein. This detective accompanied her to and from the Victoria theater, where she is performing in vaudeville.

William Travers Jerome, who, as district attorney, sent Thaw to the asylum, and, thereafter, successfully resisted all attempts of the young man to gain freedom, was told of Thaw's escape. He said that he would make no comment then, except that he was afraid that Thaw would attack him.

Legal experts are practically agreed that Thaw is immune from arrest so far as the murder of Stanford White is concerned. Even if he were arrest ed in another state on some pretext, it false and was corruptly made by him, is not believed that he could be extra-

WILLIAM SULZER

Governor of New York Accused of Larceny and Perjury.

SUMMARY OF THE CHARGES

Diversion of Campaign Contributions for Stock Speculation Is Alleged-Story of the Executive's Fight With Tammany.

Albany, N. Y .- William Sulzer, governor of New York, has been impeached by the lower house of the state legislature, and will be tried by the senate and the circuit court of appeals, sitting together as a court of impeachment. The article of impeachment, which were adopted by a vote of 79 to 45, charge the governor with ent on June 6 of this year, succeeding | perjury and larceny of campaign funds and with other slightly less serious of-

An important part of the charge is that Mr. Sulzer diverted campaign contributions to his private use and invested them in stocks. Just before the impeachment Mrs. Sulzer made a statement to the effect that she had taken part of the campaign money and bought stocks with it in Wall street. She will probably take the witness stand at the trial to tell this story.

Charges Against Sulzer

Stripped of their legal verbiage, the articles of impeachment against Governor Sulzer are as follows:

1-That Governor Sulzer, in filing his statement of campaign expenses, set forth that his entire receipts were 11 specific contributions, ranging in amount from \$100 to \$2,500.

2-That Governor Sulzer attached to his statement of campaign expenses when news of her son's escape first an affidavit declaring that the state never before seen. There were shouts reached the hotel, but Mrs. Carnegie ment was "a full and detailed state- of rage and shakings of fists in the di-"My mother and I had intended go- tributed or expended by him directly cheers and shouts when it was an-

Governor Suizer.

and that he was "guilty of willful and corrupt perjury."

3-That Governor Sulzer "was guilty duced" three witnesses (his campaign The New York City police were no- manager, a personal friend, and a

4-That the governor was guilty of "suppressing evidence" in violation of the state penal law. The specific charge is that he "practiced deceit and fraud The official description sent here and used threats and menaces with July 19 last, paid \$26,749.21. intent to prevent the Frawley commit-Height, 5 feet 111/4 inches; weight, tee from procuring the attendance and mittee that Sulzer had traded with

5-That the governor was guilty of "preventing and dissuading a witness firm, testified that on October 16 last, erty said that the escape of Thaw from attending under a subpoena" the Frederick L. 7-That Governor Sulzer promised and threatened to use the authority and influence of his office for the pur- that followed were: pose of affecting the vote or political action of certain public officers, includ-

ing two assemblymen. 8-That he "corruptly used his authority as governor to affect the prices of securities on the New York 1870, removed. stock exchange, in some of which he

How It: All Started.

When Governor Sulzer, the "peo- moved. ple's governor," and the "poor man's Boss Murphy of Tammany Hall, the most remarkable political drama New York state had ever seen was begun. Hall carried out a steady and con-

vestigation" of some Tammany-controlled state department.

What was it all about? Direct primaries, mainly. Also about appointments. Boss Murphy sought to have certain organization men appointed to office. Sulzer declined to appoint them, although he had been something of an organization man himself for a great many years, and immediately after his election to the governorship had been intimate with Murphy, so intimate that Mr. and Mrs. Murphy were welcome at the "People's House," as Governor Sulzer asserted himself in an interview. Sulzer may have told the truth when

he said his life was in danger. He declared, after his break with Tammany Hall, that he had employed guards to protect him against possible assassination. Attack after attack, mostly traceable to political enemies, was made on Sulzer. He was accused of perjury, the alleged offense having been committed, according to his accuser, in 1890. That accusation didn't seem to have much effect in the way of ruining Sulzer, so suit was filed in Philadelphia by a young woman of the name of Mignon (Folly) Hopkins, charging Sulzer with breach of promise. This action, Sulzer said also, was a move on the part of his political enemies. Miss Hopkins asked \$30,000 damages for her wounded heart. Sulzer admitted having known Miss Hopkins some years ago, but denied that he had ever proposed marriage to her.

Row Over Direct Primaries. When Sulzer promised real direct primaries to the people of New York, he evidently meant what he said. When he went into office he made it his business to start legislation for direct primaries on its way. He discovered, however, that he and his political associates had very different ideas of the kind of direct primaries New York wanted. A bill was introduced at the instigation of Sulzer, but before it was voted upon another direct primary bill, which Sulzer char-\$5,460 and his expenditures \$7,724, acterized a "fraud upon the people," that this statement "was false and was introduced in both branches of the was intended by him to be false;" that | legislature and passed. Governor Sulhis list of receipts failed to include zer vetoed it, and then called upon the legislators to pass his bill. The assembly and then the senate killed the Sulzer bill, amid scenes such as the senate and assembly chambers had ment of all moneys received or con- rection of the capitol. There were

many well known men in his cause, and called the legislature in extraordinary session. It had then become a case of open warfare.

His Campaign Fund Investigated. The governor instigated investigations of several state departments, and then Tammany retaliated in kind with an investigation of Sulzer's campaign fund by a legislative committee. Senator Frawley, a Tammany chieftain, was the chairman of the committee and it commenced its sittings in Albany. It was intimated that Sulzer had received checks for his campaign fund which he had not listed in his sworn statement, a misdemeanor under the laws of New York state. Two checks were introduced into the evidence. One was for \$2,500 from Kuhn, Loeb & Co., the bankers, and endorsed "Mr. Schiff's contribution to the Sulzer campaign." The other check was for \$500 and was signed by Abram I. Elkus, a prominent New York city lawyer. It was alleged by the Frawley committee that neither of these checks appeared in Sulzer's campaign list.

At a later session of the Frawley committee, held in New York it developed that Sulzer had owed the stock brokerage firm of Harris & Fuller \$48,-599.38 on January 1, 1912, when Sulzer was in congress. According to testimony and evidence offered. Sulzer had been a steady loser in the stock market. The brokers to whom he owed money dunned him for payment, according to the testimony, and Sulzer was finally rescued by his business partner, ex-Governor A. E. Spriggs, of Montana, who paid \$5,000, and Louis M. Josephthal of New York, who, on

HUERTA PONDERS PITTSBURG ST& Te WILSON'S MESSAGE

President's Effort to Give Impression of Stability Offset by Fighting in Suburbs.

REVOLUTIONISTS ARE GAINING

While Mexican Government is Considering the Note From Envoy Lind the Constitutionalists Are Active in the Field.

Mexico City, Aug. 18.-While Prorisional President Huerta is jockeyrecognition of his government and trying to convince skeptical financiers of its stability, the Mexican factions with which he is at war are press-

short distance north of Atzcapotzalco, in Braddock were struck by lightning a suburb, between a band of follow- and the fire department was kept busy. ers of Zapata, the revolutionary lead- The Bell Avenue school at North Brader, and federal troops. A few persons were killed or wounded in the fighting, which ended with the dispersal of the rebels.

The rebels are believed to be members of bands which during the last ning. 36 hours have appeared at different places in the federal district. The war department says they are men who have been forced out of the state of Morelos.

Wilson's Message Considered. President Wilson's message to Wilson's special representative in injured. Mexico, came to the conclusion that the simplest way to an end was to accept the document for Huerta and his cabinet and study it.

The government remains silent redial in character. While neither of dent. the principals will admit the fact, information has been obtained that the object of Mr. Lind's visit to Senor Gamboa was to deliver President Wilson's note.

Lind Refuses to Talk.

As an indication of the determinathat he cannot be criticised for talking too much in unofficial quarters, he refused to grant an interview to a group of well-known politicians including a number of members of the chamber of deputies.

The group belongs to what is known as the reform element and were close supporters of the late President Madero. Mr. Lind told them that until his official mission was fulfilled he did not desire to discuss Mexican politics with other persons than officials.

Federals and Rebels Battle. Eagle Pass., Tex., Aug. 18.-A pitched battle between constitutionalists and federals is in progress at Rodriguez, state of Chahuila, Mexico, according to military bulletins received at Piedras Negras, constitutionalist headquarters. According to the advices the fighting began when the federals had been defeated at the

nearby village of Abasolo. Many prisoners are reported to have been taken at Abasolo, including three officers who were summarily

Twelve hundred federals dispatched from Monclova are participating in the fighting at Rodriguez, it is stated. Henry Allen Tupper of the International Peace Forum, conferred with Gen. Jesus Carranza, who is in command at Piedras Negras in the absence of Venustiano Carranza, concerning conditions and the possibility of adjustment of factional differences

TRAIN CRASH INJURES MANY

Vandalia Switch Engine Fails to Make Running Switch and Theatrical Car Is Crushed.

Hammond, Ind., Aug. 18.-Walter Hammond, an actor of Lowell, Mass., was fatally injured and J. D. Dubois of Logansport, brakeman on the Vandalia railroad, and John Kramer of this city badly hurt and others of the theatrical company bruised when a Vandalia switch engine tried to make a running switch and failed. The theatrical car was jammed into by the engine and demolished. Officials of Vandalia road were in this city at the time of the accident and made their own investigation of the causes of the wreck.
